The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation, State House
Boston.*

SIR: — I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1929. The plan of the report is the same as for previous years and consists of the following tables:

- Table No. 1 — Returns of County Treasurers.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Treasurers of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.

The tables give a summary of the financial returns of the several officers and boards receiving or disbursing public funds.

Table No. 1 is prepared from the returns made by county treasurers and shows receipts and disbursements of that office. Certain other items are expended from revenues in accordance with law, and these amounts are shown in the other tables with appropriate headings and must be read in conjunction with Table 1 in order to arrive at the total receipts and disbursements of all county activities.

County taxes show an increase of \$330,622.59, or 4.32 per cent. Increased revenue is shown in the receipts from fines, costs and fees from Inferior Courts and Trial Justices, and Jailers and Masters of Houses of Correction; in fees from Clerks of Courts; from labor, board, etc., of Jailers and Masters of Houses of Correction; from Training Schools, Agricultural Schools, Hospitals, and from Peddlers' licenses. The greatest decrease is shown in fees from Registers of Deeds, which was \$50,287.89, or 9.92 per cent.

The amount of funded or fixed debt issued during the year shows a decrease over the previous year of \$632,000, or 53.45 per cent. The amount of funded or fixed debt paid was more than \$238,000 in excess of the amount of debt issued.

The expenditures for salaries of county officers and assistants, fixed by law, and clerical assistants in county offices show an increase of less than one per cent.

salaries and expenses of District Courts and Trial Justices increased \$46,338.45, or 4.41 per cent. Criminal costs in Superior Courts decreased \$31,776.38, or 5.36 per cent, and civil expenses in Supreme, Superior, Probate and Land Courts decreased \$24,390.78, or 4.42 per cent. The expenditures for highways, exclusive of the special accounts, increased \$349,279.69, or 18.21 per cent.

The books and accounts of all county officers under the supervision of this department have been examined, and, in addition, many special audits have been made. The accounts, in general, are satisfactorily kept, but there are still some officers who cause unnecessary work to our auditors by neglecting to keep their books posted up-to-date, by having incomplete records, by failing to reconcile bank accounts, and by general carelessness. However, many of the officers realize the necessity of accuracy as to detail, and those who fail to appreciate this necessity are subject to criticism. Where such laxity exists, it sometimes means actual loss of money, besides causing unnecessary work in making the audit. It is very essential that the officers have a thorough knowledge of the laws relative to the disposition of receipts and that they exercise the greatest care in keeping their records.

Improvement has been made, year by year, in keeping expenditures within appropriations, but under our present organization sufficient provision has not been made to record liabilities when contracted, and while no deliberate incurrence of a liability in excess of appropriation can be cited, it occasionally occurs that contracted liabilities are lost sight of, and, therefore, an appropriation is exceeded. This is due to divided responsibility, as the county commissioners have only partial control over certain of the appropriation accounts. A reserve fund has been provided to meet extraordinary or unforeseen expenses, and this should permit the work to be carried on without overdrafts, except in a very few cases; and the exceptional cases can be provided for by the emergency statute now on the books. A more systematic planning of expenditures and a current internal check on contractual obligations should be maintained.

We find that the treasurers are exercising necessary care in withholding payment on bills of previous years, but, wherever there are unpaid bills of previous years which have been paid without an appropriation, the examiners are put to an unreasonable amount of work in checking these bills. While we have been forced to include in the budget each year an item for bills of previous years, there is little or no excuse for continuing this practice. The statutes are clear on this point, specifying that all bills must be presented on or before January 10 of the year following.

If there is an outstanding claim on account of incompleting work, or items of a similar character, notice should be filed with the treasurer, in order that the appropriation account may be debited and accounts payable credited, thus more accurately showing the cost of government in a given year.

I fully appreciate the efforts now being made by the accounting officers but wish to urge the several officers contracting liabilities on the part of the county to cooperate with the treasurers, so that the "unpaid bill" item in the budget may be eliminated or materially reduced.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, May 1, 1930.

The Commonwealth of Massachusetts

ANNUAL REPORT

ON THE

Statistics of County Finances

FOR THE

Year ending December 31, 1930

Division of Accounts

Department of Corporations and Taxation

PUBLICATION OF THIS DOCUMENT APPROVED BY THE COMMISSION ON ADMINISTRATION AND FINANCE

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,
State House, Boston.*

SIR:—I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1930. The plan of the report is the same as for previous years, with the addition of a general summary table which is a consolidation of tables 1 to 12, inclusive, after eliminating duplications represented by transfers.

The General Laws specifically provide that certain expenses shall be paid direct by the department under whose jurisdiction the work is done. This applies particularly to court transactions and institutional work. When Chapter 400 of the Acts of 1930 is in full operation, many of the transfers will be automatically eliminated, as the county treasurer becomes the treasurer of all boards and institutions. The report consists of the following tables:

Table No. 1 — Returns of County Treasurers.

Table No. 2 — Returns of Clerks of Supreme and Superior Courts.

Table No. 3 — Returns of Clerks of District and Municipal Courts.

Table No. 4 — Returns of Trial Justices.

Table No. 5 — Returns of Registers of Probate.

Table No. 6 — Returns of Registers of Deeds.

Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.

Table No. 8 — Returns of Sheriffs.

Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11 — Returns of Treasurers of Tuberculosis Hospitals.

Table No. 12 — Returns of County Aid to Agriculture.

Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

The general tables are prepared from the returns made by the several county officials, but owing to the provisions of law which require certain expenses to be paid from receipts of the office funds deposited and disbursed as ordered by the court, and by special boards having a treasurer of their own, Table 1 does not include all the transactions of the counties.

The following summary table, which is a consolidation of Tables 1 to 12, with transfers, advances, and other transactions of a temporary nature, except bail deposits in lieu of surety, eliminated, has been prepared and is presented for the first time. It is arranged so as to show the source of receipts and purpose of expenditures of the counties as a whole. In Suffolk County, however, only those receipts and expenditures of the offices reported appear, except that money actually advanced by the county for court expenses and jails and houses of correction is included. The city of Boston pays all Suffolk County expenses, and the treasurer of said city is the County Treasurer, but is not subject to audits and reports of this office.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

Receipts

County tax	\$8,375,765.89
Temporary loans:	
Anticipation of taxes	5,119,500.00
T. B. hospital maintenance	817,863.52
T. B. hospital construction	2,225,000.00
Other	727,871.61

Tuberculosis hospitals:	
For maintenance	1,143,487.12
For construction	132,589.92
Pedlers' licenses	13,283.00
State reservations	14,450.18
Miscellaneous	60,841.52
Dog licenses and fines	365,716.72
Fees retained (taking bail)	18,209.00
Deposits in lieu of surety and tender	3,481,569.32
Printing law records for supreme court	39,989.49
Other sources	29,795.66
From defendants for non-support, restitution, etc.	1,737,838.26
Total receipts	\$28,112,452.95
Balance, January 1, 1930	2,256,861.18
GRAND TOTAL	\$30,369,314.13

Expenditures

Serial loans	\$757,554.98
Temporary loans:	
Tax	5,119,500.00
T. B. hospital maintenance	776,000.00
T. B. hospital construction	363,000.00
Other	207,248.80
Interest	320,067.03
Salaries fixed by law	400,967.08
Clerical assistance	645,284.09
District courts and trial justices, including salaries	1,243,931.41
Care and support of prisoners, including salaries	942,611.66
Criminal costs in superior courts	600,511.91
Civil expenses, supreme and superior courts	612,821.90
County commissioners' traveling expenses	17,251.48
Medical examiners, inquests and insane	116,394.71
Auditors, masters and referees	96,620.94
Construction county buildings	859,011.74
Repairs, furnishings, improvements, county buildings	233,227.80
Care, fuel, light, supplies, county buildings	495,475.62
Highways, bridges and land damages	2,643,628.55
Law libraries	61,581.52
Training schools	192,779.74
Agricultural schools and county aid to agriculture	584,857.57
Tuberculosis hospitals and health service:	
Maintenance	1,212,805.08
Construction	1,638,845.95
State reservations	71,896.82

Pensions	\$67,873.59
Previous years' bills	28,411.93
Miscellaneous	39,896.70
Dog damage and refunds	385,539.01
State treasurer	918,219.91
City and town treasurers	626,296.60
Complainants, informants and beneficiaries	14,363.99
Officers' fees and expenses	43,389.61
Fees retained (taking bail)	18,209.00
Printing law records for supreme court	40,432.51
All other	23,257.38
Deposits in lieu of surety and tender	3,445,483.07
By jail and house of correction for:	
Non-support	83,330.14
Aid to discharged prisoners	6,145.79
By probation officers for:	
Restitution	144,463.47
Non-support, etc.	1,599,280.68
Total expenditures	\$27,698,469.76
Balance on hand December 31, 1930	2,670,844.37
GRAND TOTAL	\$30,369,314.13

The amount received from dog licenses and fines is available for payment of dog officers and damages incurred by dogs, and the balance is distributed to towns in proportion to the amount received from such towns. This receipt by towns must be appropriated for the support of schools or public libraries.

The receipts for maintenance of tuberculosis hospitals include the payments for services direct, and assessments made on the cities and towns in hospital districts. The receipts for construction include \$120,000 of assessments on the districts.

More than 60 per cent of the county expenses are met by direct taxation; the next largest item of revenue is from the courts and penal institutions which aggregates more than 19 per cent of the total revenue.

The books and accounts of all the county officers, under the jurisdiction of this department, have been examined since the last annual report was made, and many special audits have been made on account of reappointment or changes of officials. The volume of work is constantly increasing, but while the accounts in general are satisfactory, there are some cases, due to carelessness or lack of interest by the officials in charge, that require an unreasonable amount of the examiners' time to correct errors due to omissions or errors in classification, and also because of the failure to have all book posting done promptly. I regret to state that shortages were found in two offices where there was failure to settle as requested. Reports on these offices were submitted to the Attorney General and to the County Commissioners as required by law.

The county treasurers, under the law, have great personal responsibility, and it is imperative that every official cooperate with them to the fullest extent. Constant improvement is noted in such cooperation, but the treasurer is not at fault if he refuses to pay a previous year's bill out of the current year's appropriation, or refuses to pay bills after the appropriation is exhausted. The examiners engaged in this branch of the work are desirous of rendering every possible assistance to the officials and to cooperate in every way, and any criticism offered is intended to be constructive.

Chapter 400 of the Acts of 1930 added a new activity to this Division. This chapter provides for the classification of positions in the service of the several counties, for the setting up of salary standards, and for the allocation of county employees to the classes established under the act.

For the purpose of the original classification, and for the administration of the law and rules thereafter, a County Personnel Board, consisting of three county commissioners, has been created. The counties are divided into three districts, and the county commissioners of each district elect one of their number to serve on the Board. Berkshire, Hampden, Hampshire and Franklin

elected Mr. Clarence E. Hodgkins of Hampshire; Essex, Middlesex and Worcester elected Mr. Frederick Butler of Essex; and Barnstable, Bristol, Dukes, Nantucket and Plymouth elected Mr. Richard E. Warner of Bristol as members of the Personnel Board. The Director of Accounts is made executive officer of the Board, and, under the law, has employed a person, skilled and experienced in classification and compensation, to devote his full time to this particular work.

This act not only provides for a classification of the service, but also provides that a continual study shall be made of the work and organization in the several counties; for the keeping of complete records of each employee; and for furnishing the officials of the several counties with duplicate copies of the same.

The County Personnel Board organized on October 24, Mr. Kenneth H. Damren having been previously selected as County Personnel Administrator. The work began by utilizing all material and data collected by the legislative committee of 1929 and the report of this committee as found in Senate Bill No. 270 of 1930. This was supplemented with much additional data and information obtained at public hearings held throughout the State, so that by the time the annual budget was completed, the classification was ready to put into effect.

With the wide difference in size of the counties, their geographical differences, and the varied economic differences, it can readily be seen that the task of classification was not an easy one. However, with the splendid cooperation received from every county official, as well as from the employees, I feel sure the purpose of the bill will be fully realized. The legislature will be relieved of detail work regarding salaries of county employees, and under the new plan, compensation will be comparable with the work performed. Statutory salaries of elective as well as appointive positions have been practically abolished, and they are now determined by the classification.

The 1930 act also provides that the county treasurer shall be the custodian of the funds of every institution, organization, board, or other public body to which funds of this county are contributed. With the classification and compensation program in operation, there will be more general equality of compensation to county employees, more definite knowledge of the fiscal requirements for the county activities, and a closer and more scientific budgetary control.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, Boston, June 1, 1931.

The Commonwealth of Massachusetts

ANNUAL REPORT ON THE Statistics of County Finances FOR THE Year ending December 31, 1931

Division of Accounts
Department of Corporations and Taxation

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,*
State House, Boston.

SIR:—I submit herewith a report on the Statistics of County Finances for the year ended December 31, 1931. In the main, the report is similar to those of previous years. The general summary table, incorporated in the 1930 report for the first time, is continued herein. Certain additional subheadings have been set up in this report in order that a more definite understanding may be had of some of the county transactions.

As noted last year, the operation of Chapter 400 of the Acts of 1930 has made the county treasurer the custodian and treasurer of every county activity involving county finance. While this has been in full operation only a short time, it is already demonstrating its value in better and clearer accounting. By this act several subsidiary treasurers and accounting offices have been made unnecessary and many "lump sum" payments from the county treasury to such officials have been eliminated. All major county accounting is now done in the office of the county treasurer.

The report consists of the following tables:

Table No. 1—Returns of County Treasurers.

Table No. 2—Returns of Clerks of Supreme and Superior Courts.

Table No. 3—Returns of Clerks of District and Municipal Courts.

Table No. 4—Returns of Trial Justices.

Table No. 5—Returns of Registers of Probate.

Table No. 6—Returns of Registers of Deeds.

Table No. 7—Returns of the Recorder and Assistant Recorders of the Land Court.

Table No. 8—Returns of Sheriffs.

Table No. 9—Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10—Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11—Returns of Tuberculosis Hospitals.

Table No. 12—Returns of County Aid to Agriculture.

Summary Table—Consolidation of Tables Nos. 1 to 12, inclusive.

The general tables, which are made from the returns of the various county officials conform to the various provisions of law governing courts, registries, jails and houses of correction, and the like. These, of course, include certain transactions which, because they involve transactions between various county officials, are in a sense duplications. Again, while the transactions set forth in Table No. 1 are more complete than hithertofore by reason of the application of Chapter 400 of the Acts of 1930 above referred to, they do not include all transactions of the county. The full analysis of the county debt, both funded and temporary and both general and contingent, is this year included in Table No. 1 in a way not before attempted, and will give a more complete statement of the exact condition of the counties in the matter of financial obligations, temporary and over a period of years.

Details for Suffolk county appear only in part. The city of Boston pays all Suffolk county expenses and the treasurer of Boston is county treasurer. The appropriations for county purposes are made by the city and not by the General Court. However, the tables do show the receipts and disbursements of Suffolk officials other than the treasurer. Advances by the county of Suffolk for court expenses and for jails and houses of correction therefore appear herein.

The Summary Table consolidates Tables 1 to 12, eliminating duplications. In the first section of the summary "Receipts" are set forth to show the sources from which they are derived and the general headings under which the finances of the counties are

Under "Expenditures" the summary table sets forth the consolidated expense of the various functions of county government, both from appropriations and under the provisions of special acts. Because of the elimination of duplications, the summary table does not check against the general tables. In other words, while the summary table does consolidate the data set forth in detail in Tables 1 to 12, the amounts set forth against each classification of receipt or expenditure are net amounts rather than totals of items printed in the other tables.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

Receipts

County tax	\$9,100,336.17
Temporary loans:	
Anticipation of taxes	5,424,000.00
T. B. hospital maintenance	1,743,700.00
T. B. hospital construction	5,520,000.00
Other	22,500.00
General loans	1,177,835.34
Interest	71,901.33
Fines, costs and fees	2,220,390.26
Requisitions (Suffolk County)	40,279.89
Jails and houses of correction (labor, board, etc.)	269,135.27
Highways and bridges	172,174.49
Training schools	51,545.10
Agricultural schools and county aid to agriculture	253,157.59
Tuberculosis hospitals:	
For maintenance	937,193.42
For construction	52,387.94
Pedlers' licenses	13,822.00
State reservations	10,896.44
Miscellaneous	24,013.70
Dog licenses and fines	363,439.50
Industrial farms	26,207.62
Prison industries	15,285.57
Fees retained (taking bail)	19,046.50
Deposits in lieu of surety and tender	2,904,310.32
Printing law records for supreme court	37,313.50
From defendants, non-support, restitution, etc.	1,639,607.99
All other	96,087.80
 Total receipts	 \$32,206,567.74
Balance, January 1, 1931	2,686,804.50
 GRAND TOTAL	 \$34,893,372.24

Expenditures

Serial loans	\$742,701.84
Temporary loans:	
Tax	5,424,000.00
T. B. hospital maintenance	933,000.00
T. B. hospital construction	4,005,000.00
Other	72,500.00
Interest	289,439.74
Salaries of county officers and assistants	451,761.33
Clerical assistance	663,327.23
District courts and trial justices, including salaries	1,163,934.22
Care and support of prisoners, including salaries	879,224.80
Criminal costs in superior courts	646,335.37
Civil expenses, supreme judicial, superior, probate and land courts	585,584.24
County commissioners' traveling expenses	18,356.82
Medical examiners, inquests and commitments of the insane	118,514.50

Auditors, masters and referees	96,513.03
Constructing county buildings	1,317,211.17
Repairing, furnishing and improving county buildings	275,183.92
Care, fuel, lights, and supplies in county buildings	501,371.58
Highways, bridges and land damages	2,632,866.52
Law libraries	61,833.07
Training schools	194,907.84
Agricultural schools and county aid to agriculture	593,450.60
Tuberculosis hospitals:	
Maintenance	1,534,892.48
Construction	1,742,704.94
State reservations	67,052.63
Pensions	65,075.93
Previous years' bills	18,725.13
Miscellaneous	35,690.35
Dog damage and refunds	352,443.53
Industrial farms	53,830.58
Prison industries	1,824.20
State treasurer	841,120.95
City and town treasurers	477,569.47
Complainants, informants and beneficiaries	7,303.19
County treasurer	337,132.89
Officers' fees and expenses	40,907.53
Witness account (Suffolk)	21,027.05
Fees retained (taking bail)	19,046.50
Printing law records for supreme court	36,378.59
Deposits in lieu of surety	2,983,979.92
By jail and house of correction for non-support, etc.	94,595.22
By probation officers for restitution, non-support, etc.	1,628,903.21
All other	53,271.54
 Total expenditures	 \$32,080,493.65
Balance on hand December 31, 1931	2,812,878.59
 GRAND TOTAL	 \$34,893,372.24

Receipts from dog licenses and fines in the various counties amounted to \$363,439.50. Of this amount, \$285,339.40 was refunded to cities and towns. While this is no great variation from last year, it seems sure that the collection and accounting for dog licenses is not properly handled under present law. Neither is the law relative to appraisal clear. Again, under present statutory provisions, there is and must be a variation in the kinds of animals, birds and livestock for which damage claims are allowed. Unless there is a change to permit better administration of these laws, both as to income and expenditure, there will be a continued lack of uniformity of enforcement and the possibility of laxity in the financial accounting processes.

The work of auditing county accounts is increasing yearly, but all accounts have been audited since the last report was submitted. Changes in officials and the death of several others have made many special audits necessary. Most officials keep satisfactory accounts. A small number are lax in this respect either through lack of training or through carelessness. Such laxness is a severe handicap to this office since it involves the expenditure of a large amount of time by the examiners to untangle the accounts of such officials, usually out of all proportion to the amounts involved.

As discussed in the last report, there has been a general coöperation between county treasurers and other county officials. This necessary coöperation has continued in the main, but it should be increased. The county treasurer has the responsibility for the proper custody and disbursement of the funds. He can not permit laxity of county officials which will bring about situations calling for payments in excess of appropriations. Neither can he pay a bill unless it is legally contracted nor unless all the statutory conditions have been complied with. During the next few years there must be a constant stiffening of requirements in order that every means of reducing expenditures may be availed of and every unnecessary expense eliminated. This department has and will continue to hold treasurers responsible for the utmost care

in these respects, and we shall uphold them in their requirements for proper conduct of business on the part of every county official.

The County Personnel Board, which functions through this department, put its personnel classification into effect on June 5, 1931, the date of the passage of the county appropriation act. During the year Mr. Richard E. Warner of Taunton died. He had been the board representative from Bristol, Norfolk, Plymouth, Barnstable, Dukes County and Nantucket. His service on the board during its early months of operation was constructive, and his long service in county government was well-nigh indispensable. To fill the vacancy, the county commissioners of the district elected Mr. Frederick A. Leavitt of Brookline. Mr. Leavitt has brought to the Board experienced and coöperative understanding which will be of the greatest value.

The classification has been in effect for seven months. It appears to give general satisfaction, though of course much remains to be done before its full effects are apparent. The fact that economic and employment conditions are abnormal has complicated the situation and has raised difficulties which will be solved more slowly than is desirable. In the main, the classification has been and will be a factor in unified control. The fact that all personnel records are now on file and that all changes are a matter of regulated procedure will operate to cut personnel and gross expense.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, BOSTON, June 1, 1932.

The Commonwealth of Massachusetts

ANNUAL REPORT
ON THE
Statistics of County Finances
FOR THE
Year Ending December 31, 1932

Division of Accounts
Department of Corporations and Taxation

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

MR. HENRY F. LONG, *Commissioner of Corporations and Taxation*
STATE HOUSE, BOSTON.

SIR:—I submit herewith a report on the Statistics of County Finances for the year ending December 31, 1932. The figures are compiled from the sworn returns of individual officers submitted to this office as required by statute. As stated in previous reports these returns include certain duplications which appear both in the treasurers' tables and the individual tables, such as requisition transfers to and from and remittances to and from. These duplications have been eliminated in the consolidation table as far as possible where the same could be identified.

The report consists of the following tables:

Table No. 1—Returns of County Treasurers.

Table No. 2—Returns of Clerks of Supreme and Superior Courts.

Table No. 3—Returns of Clerks of District and Municipal Courts.

Table No. 4—Returns of Trial Justices.

Table No. 5—Returns of Registers of Probate.

Table No. 6—Returns of Registers of Deeds.

Table No. 7—Returns of the Recorder and Assistant Recorders of the Land Courts.

Table No. 8—Returns of Sheriffs.

Table No. 9—Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10—Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11—Returns of Tuberculosis Hospitals.

Table No. 12—Returns of County Aid to Agriculture.

Summary Table—Consolidation of Tables Nos. 1 to 12, inclusive.

The Summary Table consolidates Tables 1 to 12, eliminating duplications. In the first section of the summary "Receipts" are set forth to show the sources from which they are derived and the general headings under which the finances of the counties fall. Under "Expenditures" the summary table sets forth the consolidated expense of the various functions of county government, both from appropriations and under the provisions of special act. Because of the elimination of duplications, the summary table does not check against the general tables. In other words, while the summary table does consolidate the data set forth in detail in Tables 1 to 12, the amounts set forth against each classification of receipt or expenditure are net amounts rather than totals of items printed in the other tables.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

	<i>Receipts</i>	
County tax		\$7,682,526.04
Temporary loans:		
Anticipation of taxes		5,411,500.00
T. B. hospital maintenance		1,255,400.00
T. B. hospital construction		4,196,900.00
Other		207,831.58
General loans		2,129,200.00
Interest		37,096.56

Complainants, informants and beneficiaries		4,599.66
County treasurers		247,397.29
Officers' fees and expenses		34,237.27
Witness account (Suffolk)		18,205.20
Fees retained (taking bail)		15,212.00
Printing law records for supreme court		32,465.11
Deposits in lieu of surety and tender		2,188,081.56
By jail and house of correction for non-support etc.		99,302.93
By probation officers for restitution, non-support etc.		1,363,376.16
All other		49,535.14
Total Expenditures		\$30,130,655.22
Balance December 31, 1932		1,974,142.91
Grand Total		\$32,104,798.13

County debt as set forth in the treasurers' table showing funded or serial debts is reduced annually by taxation. Temporary debt is largely made up of tuberculosis hospital loans and is payable from assessments on cities and towns in the hospital districts. These loans may be renewed if necessary. Other temporary loans represent borrowings on construction loans in anticipation of serial issue to be repaid when loan is converted. Temporary loans in anticipation of taxes are repaid from the county tax of the current year and not included in county debt.

The accounts of all county offices under the supervision of this office have been examined and for the most part found satisfactory.

Continued effort is being made to keep expenses within appropriations granted therefor. It is still necessary, however, to raise funds for bills incurred in previous years. More determined effort should be made by the commissioners of various counties to eliminate this appropriation by insisting that all bills be submitted on or before January 10, which is the time the statute provides that the treasurer shall close his books. Appropriations which the commissioners control should not be exceeded. Officials must be made to understand that expense should not be incurred which will exceed the amount raised therefor. If this practice continues approval should be refused and the official who contracted same assume the liability.

As a result of certain examinations, this department finds it necessary to criticize certain items of expense, although the same were authorized and approved by the proper authorities, as follows:

Gold badges for court officials.

Excessive rates for automobile mileage.

Baseball guarantees in connection with training school account.

Payments in violation and excess of terms of contracts.

Hotel bills at the rate of \$10 per day for one person.

Traveling expenses at flat rates instead of actual.

The county tax for 1932 as compared with 1931 was reduced by \$1,410,531.64. The estimates for 1933, as shown by the budget items compared with 1932, show a reduction of \$911,000.00 and these estimates will again be reduced if pending legislation in the reduction of salaries and compensation of county officers and employees receives favorable action.

The County Personnel Board, which functions through this division, has been very active this year in co-operating with the Legislature in studies and investigations looking toward reduction in governmental expenditures and in more efficient administration. The special committee of the legislature which sat during the recess expressed its special thanks to the board for its constructive aid. This board was also made a part of a special commission for the study of the county training schools under a legislative resolve. A report of this commission is now pending before the general court. It recommended a consolidation of the five ex-

isting schools into two and the creation of a classification board for the study and assignment of problem children to proper care.

Many personnel problems were decided by the board, often complicated by the economic conditions of the times. It will probably be necessary for the board to give much time to readjustment of salaries and salary scales during the next year, in line with the economic readjustments taking place in city, town and state payrolls.

Respectfully submitted,
THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, BOSTON, April 24, 1933.

The Commonwealth of Massachusetts

ANNUAL REPORT

ON THE

Statistics of County Finances

FOR THE

Year ending December 31, 1933

Division of Accounts

Department of Corporations and Taxation

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*
STATE HOUSE, BOSTON.

SIR: — The statutes require this division to examine the accounts and books of all county officers and of all officials receiving or disbursing county funds. There are at present three hundred and three such offices, as follows: —

- 13 County Treasurers.
- 15 Clerks of the Superior Court.
 - 1 Clerk of the Supreme Judicial Court.
- 64 Clerks of District Courts.
- 11 Clerks of Municipal Courts.
- 10 Trial Justices.
- 14 Registers of Probate.
- 21 Registers of Deeds.
 - 1 Recorder of the Land Court.
- 21 Assistant Recorders of the Land Court.
- 14 Sheriffs.
- 17 Jailers and Masters of Houses of Correction.
- 101 Probation Officers.

These offices have all been visited unannounced since the last report, the cash on hand verified by actual count, bank balances reconciled and all financial transactions checked in detail. Although the provisions of the General Laws, Chapter 35, Section 27a, make the county treasurer custodian of the funds of every institution, board, organization or commission to the use of which county funds are contributed, it is still necessary to visit institutions or other offices in order to make a complete audit. This has been done.

The report herewith sets forth the result of audits and the returns of the various officers in tabular form under the following headings:

- Table No. 1 — Returns of County Treasurers.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.
- Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

There are still a few offices which require more time than should be necessary to complete an audit. These conditions are due to carelessness or indifference in filing documents, to incomplete records, to errors in computations and in cash book entries, to failure to reconcile bank accounts, to insufficient knowledge of statutes and in some cases to deliberate reliance on this division to balance books

and discover errors. Such conditions, while not numerous, are extremely troublesome and make for delay and expense which should not be necessary.

The statutes make it mandatory that county officials file bonds before assuming office, such bonds being conditioned on faithful performance of duty and prompt settlement of accounts in accordance with law. Such bonds are assumed by surety companies properly authorized to do business in Massachusetts. With a few exceptions these bonds are paid for by the respective counties and bonds are filed with the county treasurers. A few bonds are paid for by the Commonwealth and a few, which are paid for by the counties, are required to be filed with the State Treasurer. The amounts of the various bonds are fixed under the law by the superior court in some cases, by the county commissioners in other instances and as to some other positions the amounts are fixed by the judges of the district courts. In a few instances the amounts are fixed by direct provision of law. All such bonds have been examined since the last report, and in a few instances it was found necessary to require new bonds or to make changes to conform to statutory requirements.

In connection with the examination of the accounts of probation officers we find many cases where fines have been imposed and where the defendant has been given time to make payment through the probation officer. In numerous cases the probation period has expired before complete or even substantial payments have been made and the defendant is therefore in default. In many of these cases we are told that the defendant cannot pay either because of dependents, unemployment or for various reasons. Under such circumstances, in my opinion, the matter should be brought again to the attention of the court for some disposition, thus clearing the dockets and making unnecessary the annual rechecking of these open accounts. The administrative committee of the district courts has issued a circular letter on this matter, but in all too many cases it has been ineffective. As to the volume of this type of case we are told that in 1933 at least 33% of all suspended sentences involved such fines.

The accounts of clerks of district and municipal courts are for the most part well kept and settlements are made promptly. However, in some jurisdictions we find records to the effect that fines are remitted, revised or revoked without any specific record of authorization. From an accounting standpoint this is unsatisfactory in that no adequate check can be made of such orders. It seems only fair that an officer handling funds should be protected by a specific order signed by the court in matters of this nature. On this matter, too, the administrative committee of the district courts has recommended the procedure outlined above, but again it has not been uniformly put into effect.

THE COUNTY PERSONNEL BOARD.

There has been no change in the makeup of the county personnel board during the year. Mr. Clarence E. Hodgkins represents the counties of Berkshire, Franklin, Hampden and Hampshire. Mr. Frederick Butler represents Worcester, Middlesex and Essex and Mr. Frederick A. Leavitt represents the remaining counties.

There have been fewer changes in personnel in the counties than usual, probably due to the economic situation. Numerous questions of interpretation of the classification plan and some studies of special problems have been passed on by the Board.

The most important action has been the administration of the law requiring a temporary reduction in salaries of all county officials and employees. This necessitated a complete check of all employees and a careful readjustment in conformity with law. With the application of this law limited to December 31, 1934, the entire process will be reversed before that date. Any modification or change will also be administered through the board if the legislature of 1934 passes such legislation.

In such matters the board serves the purpose for which it was created and also serves as a clearing house for all sorts of county matters.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, BOSTON, May 8, 1934.

Summary Table

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE.

The Summary Table consolidates Tables 1 to 12, eliminating duplications. In the first section of the summary "Receipts" are set forth to show the sources from which they are derived and the general headings under which the finances of the counties fall. Under "Expenditures" the summary table sets forth the consolidated expense of the various functions of county government, both from appropriations and under the provisions of special act. Because of the elimination of duplications, the summary table does not check against the general tables. In other words, while the summary table does consolidate the data set forth in detail in Tables 1 to 12, the amounts set forth against each classification of receipt or expenditure are net amounts rather than totals of items printed in the other tables.

Receipts.

County tax	\$6,947,095.01
Temporary loans:	
Anticipation of taxes	4,487,500.00

The Commonwealth of Massachusetts

ANNUAL REPORT ON THE Statistics of County Finances FOR THE Year ending December 31, 1934

Division of Accounts
Department of Corporations and Taxation

REPORT ON THE STATISTICS OF
COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*, STATE HOUSE, Boston.

SIR: — This department is required by law to examine the books and accounts of all county officials receiving or disbursing county funds, which are as follows:

County Treasurers (except Suffolk).
Clerk of the Supreme Judicial Court.
Clerk of Superior Courts.
Clerk of District and Municipal Courts.
Trial Justices.
Registers of Probate.
Registers of Deeds.
Recorder of the Land Court and Assistant Recorders.
Sheriffs.
Masters and Keepers of Houses of Correction.
Probation officers.

These offices have all been visited unannounced since the last report, the cash on hand verified by actual count, bank balances reconciled and all financial transactions checked in detail. In addition to the above it is necessary to visit agricultural schools, tuberculosis hospitals and county aid to agriculture headquarters in all counties in order to complete and audit.

The report herewith includes statistics of the various offices in tabular form under the following headings:

- Table No. 1 — Returns of County Treasurers.
Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
Table No. 3 — Returns of Clerks of District and Municipal Courts.
Table No. 4 — Returns of Trial Justices.
Table No. 5 — Returns of Registers of Probate.
Table No. 6 — Returns of Registers of Deeds.
Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Courts.
Table No. 8 — Returns of Sheriffs.
Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
Table No. 11 — Returns of Tuberculosis Hospitals.
Table No. 12 — Returns of County Aid to Agriculture.
Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

As a result of the passage of Chapter 368 of the Acts of 1934, the so-called "no-fix", law and the new forms and setup of the dog laws, the volume of work has increased materially. In one court alone, since October 1, 1934, when the new parking laws went into effect, more than seventeen thousand cases have been handled. As a general rule, new incumbents in office request an audit, which we feel they are entitled to, and every effort is made to comply promptly with such requests when made. This necessarily breaks into schedules as laid out in connection with the work and makes it difficult to cover every office once a year. However, a complete audit has been made during the past year.

General Laws, chapter 35, section 37, as amended by chapter 28 of the Acts of 1933, provides in part that county commissioners may borrow money in anticipation of and to be paid from the county tax of the current year. It is the practice of some counties to borrow large sums in excess of their immediate needs in order to take advantage of a low rate of interest or discount. In our opinion this procedure involves an unnecessary risk of public funds and is dangerous in that it may lead to speculation on market conditions. The statute as to borrowing in anticipation of revenue undoubtedly intended that such borrowing should be only in sufficient amount to meet current bills. County treasurers are restricted by law only to the extent that they shall deposit in a national bank or trust company at the best practical rate of interest.

It is of interest to study certain statistics relating to county finance covering the past five years. Below is a table showing total tax levies and the funded debt situation from 1930 to and including 1934 for all counties except Suffolk and Nantucket.

Year	Total Tax Levy	General Funded Debt
1930	\$8,359,566	\$4,548,463
1931	9,081,200	5,256,766
1932	7,671,104	5,070,075
1933	6,934,536	4,513,731
1934	6,854,766	4,011,937

It will be noted that the all time high was reached in 1931. From that date both county commissioners and the Legislature have made a very strong endeavor to curtail as a relief to taxpayers in these trying times. This has resulted in a reduction of total expenditures by 20% in 1934; tax levy reduction of 24%; and at the same time a debt reduction of 23%. On the other hand, it must be stated that there is necessarily to be expected an increase in 1935 due to rising costs, restoration of salaries and a greater demand for highway work.

A large proportion of county expenditures is for court costs. Below is another table showing some of these costs for a five year period. It appears that the curtailment of court expenses has been much less than in other items. The reduction in the total cost of county government has been nearly twice as much as the reduction in these items.

Year	District Courts	Criminal Costs	Civil Expenses	Medical Examiners	Auditors Masters
1930	\$1,131,456	\$599,759	\$612,069	\$116,023	\$96,090
1931	1,188,790	645,186	584,435	118,233	96,413
1932	1,195,257	670,380	544,974	115,749	191,674
1933	1,137,577	628,581	394,716	116,028	141,284
1934	1,172,800	636,027	395,633	119,546	63,896

The County Personnel Board has continued its work in classification and control of county salaries. The restoration of salaries to their former levels has entailed a considerable amount of detailed work.

In addition to such normal activities, the board is becoming an agency to act for counties in other matters. Due to revision of the laws relating to licensing dogs, the board has acted in the purchase of licenses and tags for all counties except Suffolk. These were purchased on bids and a very fine quality of workmanship was secured at low prices.

I wish to express my appreciation to the accountants engaged in this branch of the work for their success in absorbing a steadily increasing volume of business.

Respectfully submitted,

THEODORE N. WADDELL

Director of Accounts.

STATE HOUSE, BOSTON, May 17, 1935.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

	Receipts
County Tax	\$6,859,881.01

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*,
STATE HOUSE, BOSTON.

SIR:—I submit herewith the annual report of county finances for the year ending December 31, 1935. The statistical tables showing financial transactions are similar in form to those of previous years. This report includes tabulations of the receipts and expenditures of all county officers whose accounts come under the jurisdiction of this department, also a consolidation of these tabulations with duplications omitted insofar as they can be identified, under the following headings:

Table No. 1 — Returns of County Treasurers, except Suffolk.

Table No. 2 — Returns of Clerks of Supreme and Superior Courts.

Table No. 3 — Returns of Clerks of District and Municipal Courts.

Table No. 4 — Returns of Trial Justices.

Table No. 5 — Returns of Registers of Probate.

Table No. 6 — Returns of Registers of Deeds.

Table No. 7 — Returns of the Recorder and Assistant Recorders of the Land Courts

Table No. 8 — Returns of Sheriffs.

Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11 — Returns of Tuberculosis Hospitals.

Table No. 12 — Returns of County Aid to Agriculture.

Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

The requirements of General Laws, Chapter 35, Section 44 and 45 have been complied with, except that a few offices could not be visited on account of additional special examinations made necessary for the most part by changes in administrative officers. Assignments have been made to cover the same and they will be completed in the near future.

A comparison of expenses included in Table 1 of this report shows a substantial increase over those of the previous year. Salary restorations and increased costs of the courts in civil proceedings account largely for this increase.

The total appropriated for "Reserve Fund" amounted to \$78,500. This item is used for transfer purposes only, on written approval of the director of accounts, to be applied in cases where appropriations prove insufficient. Authorized transfers for this year amounted to \$58,101.70. In many instances it appears that a more careful estimate would result in appropriations more nearly conformity with the needs. During the past two or three years this department has recommended and the Legislature has tended toward a reduction in this item.

The amount necessarily appropriated for bills of previous years is excessive. Annual requests for appropriations on this account could be reduced if officials would make effort to secure and present bills for payment before the close of the fiscal year. Such action, together with the more careful holding of expenditures within the limits of appropriations as discussed above, would reduce this item materially.

Revenue from fines, costs and fees collected from defendants in criminal cases more than doubled those of the previous year as a result of a change in the law relative to disposition of automobile fines which prior to December 1, 1934 were paid to the state treasury. Legislation enacted to take effect on that date diverted these funds to cities and towns, and further legislation again changed the disposition as of October 1, 1935 making these fines payable into the treasury of the county where the offence was committed.

There was a falling off in receipts in the registries of deeds in 1935 as compared with 1934. The main cause of this was the termination of the activities of the Federal Home Owners' Loan Corporation in extending new loans.

There has been no change in the make-up of the County Personnel Board, which functions through this division. Mr. Clarence E. Hodgkins of Hampshire county represents the four western counties; Mr. Frederick Butler of Essex represents that county together with Worcester and Middlesex; Mr. Frederick A. Leavitt of Norfolk represents the remaining counties. The only problem of this board, beyond the usual administrative duties of operating the personnel system, has been the study and adjustment of the salary scale for Clerks of the Courts. The change of law by which fees for naturalization are now turned into the county treasuries had entirely upset the basis of salary fixing for this office which was originally adopted. The resurvey has been completed and has been put into effect. Many other minor investigations have been carried on and it appears that several schedules will soon need revision in the light of the experience gained through the five years since the classification system was applied to county employment.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts.

STATE HOUSE, BOSTON, May 7, 1936.

ANNUAL REPORT

ON THE

Statistics of County Finances

FOR THE

Year Ending December 31, 1936

Division of Accounts

Department of Corporations and Taxation

REPORT ON THE STATISTICS OF
COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,*
State House, Boston.

SIR:—The form of this report is not different from those of recent years. The tables are prepared from the returns of the various officials. Since these returns result in some duplications the text table is a consolidated set-up from which duplications have been eliminated so far as possible. Following the consolidated analysis, the usual tables are set up as follows:

Table No. 1—Returns of County Treasurers, except Suffolk.

Table No. 2—Returns of Clerks of Supreme and Superior Courts.

Table No. 3—Returns of Clerks of District and Municipal Courts.

Table No. 4—Returns of Trial Justices.

Table No. 5—Returns of Registers of Probate.

Table No. 6—Returns of Registers of Deeds.

Table No. 7—Returns of the Recorder and Assistant Recorders of the Land Courts.

Table No. 8—Returns of Sheriffs.

Table No. 9—Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10—Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11—Returns of Tuberculosis Hospitals.

Table No. 12—Returns of County Aid to Agriculture.

Summary Table—Consolidation of Tables Nos. 1 to 12, inclusive.

The provisions of law requiring annual examinations of all offices in counties were substantially completed within the year in spite of many special examinations due to deaths, resignations and changes of personnel. Such special examinations vary from year to year and occasionally require so much time as to seriously hamper the auditing force in covering the entire field.

The most notable change in the figures during the current year is the great increase in revenue in all counties from fines, costs and fees. This was brought about by the change of law, effective October 1, 1935, by which motor vehicle fines under chapter ninety of the General Laws were made payable to counties. Counties pay the cost of the district courts where such cases are tried and the payment of such fines into the county treasuries tends to lighten the direct tax burden on real estate.

Plans are being formulated for a change in county accounting which will set up the accounts strictly on a functional basis. This change of accounting, with a corresponding change in the basis of appropriations, will make for better business methods, better understanding on the part of the public and more careful checks on expenditures. It is hoped that this change may be put into effect during the coming year.

Chapter 400 of the Acts of 1936 established a new plan for contributory retirement systems in counties. Ten counties have adopted the new provisions, nine to be effective on January 1, 1937 and one on July 1, 1937. This action leaves only Franklin, Nantucket and Dukes County without such retirement provisions.

The adoption of contributory retirement laws will in the immediate future appear to increase the pension burdens in these counties. Such increase will be more seeming than real. The actual result in many cases will be to retire certain older employees at half pay or less, many of whom, though receiving full pay because there had been no way to retire them, have not been regular in attendance on their duties or able to carry a full load when present.

In general the County Personnel Board, which functions in connection with this division, has had no more than the usual problems. With the return of better business conditions and with the resumption of salary increases in state departments, there has been a tendency to grant more increases in counties. At the close of the year most of the salaries below the minimum established in the county classification plan had been raised either to or nearly to that minimum.

The employees in the institutions of the Commonwealth have been put on a forty-eight hour week. In the jails and houses of correction these hours have been mandatory by statute for some years. In the hospitals the result of the change in state institutions has been to force the county hospitals to conform or lose many of their most valuable employees. Soon these hours will become standard for all institutions.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

STATE HOUSE, BOSTON, May 15, 1937.

The Commonwealth of Massachusetts

ANNUAL REPORT
ON THE
Statistics of County Finances
FOR THE
Year Ending December 31, 1937

Division of Accounts

Department of Corporations and Taxation

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*
STATE HOUSE, BOSTON

SIR:—The form of this report is similar to those of recent years. The tables are prepared from sworn annual returns of the various county officers, no table being given for the treasurer of Suffolk County in accordance with the provisions of Section 18, Chapter 35, General Laws. The consolidated analysis represents a summary of all tables with duplications eliminated where they can be identified. Following the consolidated analysis, the usual tables are set up as follows:

Table No. 1 — Returns of County Treasurers, Suffolk excepted.

Table No. 2 — Returns of Clerks of Supreme and Superior Courts.

Table No. 3 — Returns of Clerks of District and Municipal Courts.

Table No. 4 — Returns of Trial Justices.

Table No. 5 — Returns of Registers of Probate.

Table No. 6 — Returns of Registers of Deeds.

Table No. 7 — Returns of Recorder and Assistant Recorders of the Land Court.

Table No. 8 — Returns of Sheriffs.

Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11 — Returns of Tuberculosis Hospitals.

Table No. 12 — Returns of County Aid to Agriculture.

Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

The law requires the examination of the accounts of county officers receiving money payable to the various counties at least once a year. Such examinations have been completed in all but a few cases and these have been assigned for immediate audit. An absolutely complete annual audit is made difficult if not impossible because of changes in official personnel through death, retirement, or expiration of term of office. Moreover, the work is increasing materially due to changes of law. The "no fix" parking law, so-called, made checking of 80,000 additional items in one court.

Shortages disclosed in 17 offices aggregating \$1,606.96 were made good either during or at the completion of the audit. The major portion of the total shortages occurred in one office, amounting to \$1,100.99.

It is still the practice in some of the larger counties to borrow in anticipation of taxes in excess of immediate needs. The law limits such borrowings only to the extent that they cannot exceed the tax of the previous year; and if the current year's tax has been granted, such loans shall not exceed its amount. It is explained that this procedure is followed in order to take advantage of a low rate of interest or discount, but it does not appear to conform to the intent of the law. It is obvious that this practice creates surplus funds and an unnecessary risk of public money for the reason that the law does not restrict county officers as to the amounts which may be deposited in banks or trust companies.

The total county debt January 1, 1938, was \$2,934,352.06. This is reduced annually by taxation and the present outstanding debt will be totally retired in 1951. The contingent debt, representing county tuberculosis hospital loans for maintenance and construction, amounts to \$2,069,050.00. These loans are in anticipation of reimbursement by assessment on the various cities and towns in hospital districts.

The statutes make the county treasurers custodians of county money and impose upon them the duty of disbursing it according to law, stipulating that no payments shall be made, except payments in criminal prosecutions, expenses of the courts, compensation or salaries of county officers established by law, outstanding notes or bonds and interest thereon, except on orders drawn and signed by a majority of the county commissioners, certified by their clerk and accompanied by original bills, vouchers, or evidences of county indebtedness for which payment is ordered, and stating in detail the items confirming the account. Bills in excess of \$1,000 for building, altering, furnishing or repairing public buildings, for the construction or repair of public works, or for the purchase of supplies are required by law to be under contract, unless, in the judgment of the commissioners expressed in a vote duly recorded, it is for the best interests of the county that certain repairs or other public works be done by the day.

It will be noted that under the above law there are certain expenses which the commissioners do not control. Situations exist, however, where bills have been incurred by county officers in the latter part of the year without the commissioners' knowledge, resulting in liabilities in excess of appropriations, necessitating a deficit appropriation or a transfer from the reserve account to cover them. It should not be necessary to draw on the reserve fund for this purpose and if officials persist in incurring indebtedness without the commissioners' knowledge, the commissioners should refuse to approve such bills. This situation also develops lack of adequate accounting control, which it is hoped will be remedied in the near future.

The statutes covering the payment of witness fees to salaried police officers are rather troublesome. Generally speaking, police officers receiving a regular stated salary are prohibited from receiving fees except as expressly provided by law; and although we have found no positive evidence to this effect, we feel that fees have been paid to officers who were not entitled to receive them. If the statutes concerning fees could be clarified and changed to meet existing conditions, it would be of great assistance, especially to disbursing officers and those engaged in the work of auditing county accounts.

On January 1, 1937, contributory retirement systems became operative in all counties except Dukes County, Nantucket, and Franklin. Previous systems in Barnstable, Middlesex, Norfolk, and Worcester were superseded by new provisions of law (Chapter 400, 1936, amended by Chapter 336, 1937). These systems are operated by retirement boards in each county consisting of the county treasurer, ex-officio, and two other members, one elected by members of the system, and the third chosen by the other two.

The County Personnel Board has the same membership as during the past years. The usual problems have arisen, but the work of this board has not been marked by particular difficulty in most respects during the year.

The county classification system has now been in effect for nearly seven years. In all such cases periodic resurveys are necessary to keep the whole system up to date and properly applicable to current needs. The County Personnel Board feels that such survey should be made soon, and hopes to arrange for it during 1939. This would enable any necessary changes to become effective in 1940, ten years after the first complete survey.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

The Commonwealth of Massachusetts

ANNUAL REPORT
ON THE
Statistics of County Finances
FOR THE
Year Ending December 31, 1938

Division of Accounts
Department of Corporations and Taxation

State Library of Massachusetts
State House, Boston

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*,
STATE HOUSE, BOSTON.

SIR: — The form of this report is similar to those of recent years. The tables following are prepared from figures submitted to this office in sworn annual returns of various county officers as required by law. The county treasurer of Suffolk county makes no return, being exempt by the provisions of Section 18, Chapter 35, General Laws. In the summary table, duplications have been eliminated where they can be identified. Following the summary, the usual tables appear as follows:

Table No. 1 — Returns of County Treasurers, except Suffolk.

Table No. 2 — Returns of Clerks of Supreme and Superior Courts.

Table No. 3 — Returns of Clerks of District and Municipal Courts.

Table No. 4 — Returns of Trial Justices.

Table No. 5 — Returns of Registers of Probate.

Table No. 6 — Returns of Registers of Deeds.

Table No. 7 — Returns of Recorder and Assistant Recorders of the Land Courts.

Table No. 8 — Returns of Sheriffs.

Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11 — Returns of Tuberculosis Hospitals.

Table No. 12 — Returns of County Aid to Agriculture.

Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

The provisions of Sections 44 and 45 of Chapter 35, General Laws, require the examination of the books and accounts of all county officers receiving money payable to the county at least once a year. We regret to have to report that at the end of the year several offices had not been visited. This is due to an increase in the volume of work which reflects in additional time consumed by the examiners concerned in the work. Changes in law have resulted in a tremendous number of parking violations in the large cities which have to be checked annually. Changes in personnel in various county offices require additional special examinations. In order to audit, analyze and tabulate the material for this report it is necessary that the examiners spend approximately two months in the office on this work, which means that the field work is retarded to that extent. Assignments were made to cover the unfinished work and as this report goes to press the entire schedule has been completed.

Discrepancies amounting to \$1,434.05 occurred in one office due to the fact that the official was carrying money which he had received in his official capacity in his own personal bank account instead of in an official bank account as required by law. This condition was corrected at the end of the audit.

We find that many officers are allowing funds in their possession to be used to cash personal checks and for advances not authorized by law. Such use of public or obligated funds is a bad practice and each officer as his books are examined is required to make good all such money advanced. We have requested that this procedure be discontinued.

As previously reported, some of the larger counties have borrowed in anticipation of taxes sums greatly in excess of their immediate needs. Section 37 of Chapter 35, General Laws, limits such borrowings only to the extent that they cannot exceed the tax of the current year if said tax has been granted, otherwise not to exceed the tax of the previous year. It is obvious that this practice creates surplus funds and is an unnecessary risk of public money since the law does not restrict county officers as to the amount which may be deposited in banks and trust companies.

In 1938 the county commissioners in three counties apportioned the county tax incorrectly, either by failure to follow the procedure as set forth in Section 31, Chapter 35, General Laws, or by failure to apply properly special acts as passed by the Legislature in prior years. These errors necessitated a reapportionment of the tax for each of these three counties and the collection of additional taxes from those cities and towns who had underpaid and a refund to those cities and towns who had overpaid of \$45,814.55.

Trouble is still being experienced by the examiners in finding that bills in excess of one thousand dollars are being incurred and paid without complying with Section 17, Chapter 34, General Laws, which provides that bids must be solicited by advertising. No county treasurer is authorized to pay such bills unless and until all provisions of the statute referred to above have been fully complied with.

In Bristol county the district attorney and his assistants have from time to time since October 27, 1936 obtained from the county treasurer on requisitions properly approved as provided by Section 25, Chapter 12, General Laws, \$1,400 for travel outside the Commonwealth in the search for, and to bring back for trial, persons under indictment. After repeated requests in accordance with Section 21, Chapter 35, General Laws, the county treasurer has been unable to obtain an accounting and refund of any remaining balance from these officers.

The total county funded debt as of January 1, 1939 was \$3,105,750. This is being reduced annually by taxation and will be entirely retired in 1951. The contingent debt for maintenance for the tuberculosis hospitals amounts to \$1,350,000 which will be paid off by assessments against the hospital districts during the coming year. There is also a contingent debt for construction of certain hospitals amounting to \$2,031,300 which is being retired by annual assessments against such hospital districts.

There has been a decrease in general revenue in 1938 as compared with 1937. The tabulation below shows this decrease and, of course, is exclusive of taxes and assessments. It also excludes Suffolk county where the financial setup is very different from that in other counties.

Items showing decrease — total decrease.....	\$124,954.62
Items showing increase — total increase.....	<u>75,841.73</u>
Net Decrease.....	\$49,112.89

Such decrease in revenues is, of course, reflected in the county tax and has a direct effect on the estimates for county expenditures. In this connection it is noted that part of the decrease is from sources connected with the courts, and while income is decreasing the cost of the courts is steadily mounting. This year nearly \$10,000 less has been received from fines in the superior court while receipts from district courts and trial justices have dropped off almost \$40,000. Court expenses, while in the county budgets, are outside the control of the county commissioners and constitute a very substantial part of the total county expenditures. It is also to be noted that the inactive real estate market results in a decrease in revenue from registries of deeds of approximately \$29,000.

All counties except Dukes County, Nantucket and Franklin now have contributory retirement systems and in Dukes County and Franklin such will begin to function in 1940. While the technical auditing and the actuarial control of these systems are vested in the Division of Insurance, yet they entail considerable additional work in the general audit of the accounts of county treasurers.

Under a legislative resolve the County Personnel Board has been part of a special commission to study county training schools. The report of the special commission to the 1939 Legislature is found in current House Document No. 2123. Aside from this the County Personnel Board has performed its usual functions. Mr. Clarence A. Hodgkins, long a county commissioner of Hampshire county, retired from office at the end of the year. He had been a member of the County Personnel Board from its beginning and his experience and helpful assistance will be missed.

Respectfully submitted,
THEODORE N. WADDELL,
Director of Accounts.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

1938

The Commonwealth of Massachusetts

ANNUAL REPORT

ON THE

Statistics of County Finances

FOR THE

Year Ending December 31, 1939

Division of Accounts

Department of Corporations and Taxation

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, Commissioner of Corporations and Taxation,
STATE HOUSE, BOSTON.

SIR: — The form of this report is similar to those of recent years. The tables are prepared from sworn annual returns of the various officers in accordance with Section 18, Chapter 35, General Laws, no table being given for the treasurer of Suffolk county. Detail for Suffolk county appears only in part, as the city of Boston pays all of Suffolk county expenses and the treasurer of the city is also the county treasurer. However, the receipts and expenditures of Suffolk county officials other than the treasurer, and advances by the county of Suffolk for court expenses and for jail and house of correction appear herein.

The consolidated analysis represents a summary of all tables with duplications eliminated where they can be identified. Following the consolidated analysis, the usual tables are set up as follows:

Table No. 1 — Returns of County Treasurers, except Suffolk.

Table No. 2 — Returns of Clerks of Supreme and Superior Courts.

Table No. 3 — Returns of Clerks of District and Municipal Courts.

Table No. 4 — Returns of Trial Justices.

Table No. 5 — Returns of Registers of Probate.

Table No. 6 — Returns of Registers of Deeds.

Table No. 7 — Returns of Recorder and Assistant Recorders of the Land Courts.

Table No. 8 — Returns of Sheriffs.

Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11 — Returns of Tuberculosis Hospitals.

Table No. 12 — Returns of County Aid to Agriculture.

Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

In our annual examinations of the accounts of clerks and probation officers of superior, district and municipal courts, we find numerous pending cases which run back a number of years and which represent a substantial amount of revenue. Each time an examination is made, these cases have to be rechecked and relisted, which consumes considerable additional time. Many of these cases are old and the record remains the same year after year. This situation is a result of defaults, indefinite continuances and suspensions, and judgments of "Fines Not to be Paid." In many instances, capiases and default warrants have been issued with no return on the same. We recommend some standardized method of closing cases and a closer check on the service and return of capiases and warrants.

The Administrative Committee of District Courts have included in a report dated February 26, 1940 a comprehensive method of procedure which fully covers the difficulty above mentioned, and with which this office is in entire accord. In one court following a suggestion by this office, a number of old cases were called and, as a result, about fourteen hundred dollars in revenue was received and many other cases closed by court order. Inasmuch as this action was successful in one court, we feel, if such procedure could be followed generally, that it would at least clear the dockets and reduce the work and expense of this office materially.

The total county funded debt as of January 1, 1940 was \$2,614,320.60 which amount is \$638,966.18 less than that outstanding on January 1, 1939. This debt is being reduced annually by taxation and will be entirely retired in 1951. The contingent debt for maintenance of the tuberculosis hospitals amounts to \$1,413,500.00 which will be

paid off by assessments against the hospital districts during the coming year. There is also a contingent debt for construction of certain hospitals amounting to \$1,829,750.00 which is being retired by annual assessments against such hospital districts and will be entirely paid in 1953.

The change to biennial sessions of the legislature has brought problems in county finance. As many of these problems as possible were anticipated by changes of law, but there are certain difficulties which will have to be ironed out in the next session. In particular, certain restrictions on travel and expenses of employees make trouble because the wording of the law does not take into consideration some circumstances in the administration of the courts and the transportation of prisoners and commitment of the insane.

The whole subject of fees and expenses in the courts needs long and careful study. This division called attention to this matter a few years ago but no progress has been made. Until Chapter 262 of the General Laws is thoroughly studied and brought into conformity with modern needs there will be confusion and misunderstanding.

The County Personnel Board has continued to function, but it has been hampered by the fact that funds have not been available for a much needed resurvey. The classification of county personnel was made nearly ten years ago. Since that time, economic and governmental changes have operated to upset many of the conclusions arrived at then. It is hoped that an appropriation may be made for a survey next year. Such study will correct classifications and will clarify the personal service problems of the counties and make for better administration.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

STATE HOUSE, BOSTON, June 11, 1940.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

1939

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*
STATE HOUSE, BOSTON

SIR:—The form of this report is similar to those of recent years. The tables are prepared from sworn returns of the various county officers in accordance with Section 18, Chapter 35, General Laws. Detail for Suffolk county appears only in part, as the city of Boston pays all of Suffolk county expenses and the treasurer of the city is also the county treasurer. Receipts and expenditures of Suffolk county officials other than the treasurer, and advances by the county of Suffolk for court expenses and for jail and house of correction appear herein.

The consolidated analysis represents a summary of all tables, with duplications eliminated where they can be identified. Following the consolidated analysis, the usual tables are set up as follows:

- Table No. 1 — Returns of County Treasurers, except Suffolk.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of Recorder and Assistant Recorders of the Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.
- Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

The books and accounts of the three hundred and one county offices under the jurisdiction of this department, except for a few offices, were examined before the end of the year 1940. Those offices not examined prior to the end of the year were all completed by the middle of February. The volume of work is constantly increasing and while the accounts in general are satisfactory there are some cases, due to carelessness or lack of interest by the official in charge, that require an unreasonable amount of the examiners' time.

I regret to state that shortages were found in a number of offices examined. While it is true that with but one exception they were made good within the ten days permitted by Section 47, Chapter 35, General Laws, the fact remains that to say the officials were careless both in handling cash and keeping their records is to put it mildly. Clerks of courts and probation officers are the chief offenders and from the very nature of their work, they should keep free of this criticism.

The books and accounts of clerks and probation officers still show long lists of pending cases involving fines on which no action has been taken for a long time. These pending cases are reviewed and relisted each year by your examiners. Much revenue might be obtained if these cases were brought before the courts for action, as recommended in our report of last year and in the report of the Administrative Committee of District Courts dated February 26, 1940.

In the matter of fines imposed in the superior court, we found that in Essex county the sheriff did not receive from the clerk a certificate of fines imposed by the court but suspended as to payment, as provided by Section 11, Chapter 280, General Laws. In Bristol county it was found that the probation period had terminated in many cases with no record being made in the clerk's docket of the disposition of the money involved. It would be extremely helpful if both the superior and district courts would adopt a standardized form for closing certain types of cases; for instance, where fines are involved, if the orders "Suspended Indefinitely" and "Not to be Paid" could be changed to "Suspended to..... (a date certain) for Payment". If for any reason at the end of the probation period the terms have not been complied with, a further suitable order should be made. It would be desirable also if the order "Not to be Paid" could be clarified to read "Not to be Paid if Probation Terms are Complied with", and finally closed by an order, "Probation Period having Expired, any Sentence or Order is Vacated and Placed on File". This would result in clearing the docket and materially reducing the number of pending cases.

We are also troubled with default cases where fines and other penalties are involved. In some cases a default warrant or capias is issued but no attempt is made to apprehend the defendant and no return is made of the warrant or capias stating reason for non-service.

Many times in the past we have called attention to the necessity of a study of the whole subject of fees and expenses as set forth by Chapter 262 of the General Laws, for the purpose of clarification and modernization and to eliminate confusion and misunderstanding.

Each year there is provided in the county budget an item for "Unpaid Bills of Previous Years". This appropriation is intended to care for bills not received in time for approval and payment prior to January 10. However, we find that certain officials in some counties contract for and incur liabilities in excess of appropriations and present bills therefor after the books are closed. Of these contracts and liabilities the county commissioners often have no knowledge, but must include a sum sufficient to pay these claims in the budget for the succeeding year under the item "Unpaid Bills of Previous Years". It was not intended that the item should provide, in effect, a means to increase an appropriation authorized by the Legislature. Such condition is illegal and cannot continue.

We have found in some instances that bills have been paid from the Reserve Fund before authorization for transfer. This, obviously, is another illegal practice.

The county funded debt as at January 1, 1941 was \$1,922,504.42 which is \$691,816.18 less than that outstanding on January 1, 1940. The present outstanding debt is being reduced annually by taxation and will be entirely retired in 1951. There is also a contingent debt for construction of certain tuberculosis hospitals amounting to \$1,557,200.00 which is \$272,550.00 less than that outstanding January 1, 1940 and is being retired by annual assessments against such hospital districts and will be entirely paid off in 1953. This, however, does not include temporary loans for maintenance of tuberculosis hospitals which will be paid off by assessments against the hospital districts during the coming year.

The County Personnel Board is again requesting an appropriation in order to make a resurvey of the personnel of counties. After more than ten years of operation such

survey is badly needed. During most of the past decade, economic conditions have been very bad and this has affected the full operation of the classification and compensation plan. Now we are entering a period where conditions seem to be reversing and where there will be a labor shortage in some classes of employment. All these things bring problems. Where the appropriation is so small that the board cannot travel to the various counties nor pay the cost of extra postage and printing, these problems cannot properly be solved.

An attempt by the Legislature of 1939 to bring control of mileage allowances and similar county expenditures into conformity with the regulations applying to state employees did not take into consideration several points in which certain county services differ widely from state service. This has led to endless misunderstanding and trouble. This year, such matters must be very carefully studied before the passage of any such legislation.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

The Commonwealth of Massachusetts

ANNUAL REPORT
ON THE
Statistics of County Finances
FOR THE
Year Ending December 31, 1941

Division of Accounts
Department of Corporations and Taxation

THE COMMONWEALTH OF MASSACHUSETTS

REPORT ON THE STATISTICS OF COUNTY FINANCES

Hon. Henry F. Long, Commissioner of Corporations and Taxation,
State House, Boston

Sir:- The form of this report is similar to those of recent years. The tables are prepared from sworn returns of the various county officers in accordance with Section 14, Chapter 35, General Laws. Detail of Suffolk county appears only in part, as the city of Boston pays all of Suffolk county expenses and the treasurer of the city is also the county treasurer. Receipts and expenditures of Suffolk county officials other than the treasurer, and advances by the county of Suffolk for court expenses and for jail and house of correction appear herein.

The consolidated analysis represents a summary of all tables, with duplications eliminated where they can be identified, and the usual tables are set up as follows:

- Table No. 1 - Returns of County Treasurers, except Suffolk.
- Table No. 2 - Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 - Returns of Clerks of District and Municipal Courts.
- Table No. 4 - Returns of Trial Justices.
- Table No. 5 - Returns of Registers of Probate.
- Table No. 6 - Returns of Registers of Deeds.
- Table No. 7 - Returns of Recorder and Assistant Recorders of the Land Court.
- Table No. 8 - Returns of Sheriffs.
- Table No. 9 - Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 - Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 - Returns of Tuberculosis Hospitals.
- Table No. 12 - Returns of County Aid to Agriculture.
- Summary Table - Consolidation of Tables Nos. 1 to 12, inclusive.

Annual audits of the accounts of three hundred and one county officials are required and an audit was made of all offices before the end of February. Again I regret to state that shortages were found in a few of the offices. All such shortages were made good within the ten day

period permitted by Section 47, Chapter 35, General Laws. The fact remains, however, that some officials handling public funds conduct the business of the office they hold in a careless manner, which is entirely inexcusable. Officials connected with the courts are the chief offenders and from the very nature of their work they should keep themselves free from all criticism.

In last year's report, comment was made on the method of handling payments of suspended fines imposed by criminal courts, more particularly in reference to a standardized form of closing certain types of cases. Recommendation was made to the Administrative Committee of District Courts and as a result dockets have been cleared and the pending file reduced.

In previous reports, attention has been called to the handling of bills of previous years, payments of which are charged against the appropriation for "Unpaid Bills of Previous Years". These liabilities are for services rendered or supplies received prior to the closing of the treasurer's books, the bills for which are not received until after that time. It is regrettable that bills have been held over when an appropriation is exhausted and are charged to "Unpaid Bills of Previous Years". We feel this is entirely improper. A study of the tabulation below clearly shows that, had all charges been received prior to the closing of the treasurer's books, expenditures against each appropriation would have been larger and would more nearly show the true cost of each activity.

ANALYSIS OF CHARGES AGAINST 1941 APPROPRIATION FOR UNPAID BILLS OF PREVIOUS YEARS.

Clerical assistance in county offices	
Salaries and expenses of district and municipal courts	2,
Salaries of jailers, masters and assistants and support of prisoners in jails and houses of correction	3,
Criminal costs in superior courts	1,
Civil expenses in supreme judicial, superior, probate and land courts	
Transportation and expenses of county and acting commissioners	
Medical examiners and commitments of insane	7,

auditors, masters and referees	1,962.84
repairing, furnishing and improving county buildings	1,624.63
fare, fuel, lights and supplies in county buildings,	
other than jails and houses of correction	1,532.81
highways, including state highways, bridges and land damages	3,256.71
law libraries	557.10
training schools	5,620.95
county aid to agriculture and agricultural schools	157.02
sanatorium	977.79
state reservations	37.57
Miscellaneous and contingent expenses, including insurance	3,114.88
F.P.A. projects	<u>3.31</u>
Total	\$33,331.14

During 1941, installation of the new accounting system prescribed by this division has been made in two county treasurers' offices and others will be made in the near future. The treasurer of Barnstable county, Bruce K. Jerauld, in 1938 and 1939 installed the new accounting system in this county. The system is set up in such way that it can be easily changed to conform with changing conditions and more easily converted when the whole appropriation structure is revised.

The county funded debt as of January 1, 1942 was \$1,683,288.24 which is \$239,216.18 less than that outstanding January 1, 1941. The present outstanding debt is being reduced annually by taxation and will be entirely retired in 1951. There is also a contingent debt for construction of certain hospitals amounting to \$1,292,650.00 which is \$264,550.00 less than outstanding January 1, 1941 and is being retired by annual assessments against the hospital districts and will be entirely paid off in 1953. This, however, does not include temporary loans for maintenance of tuberculosis hospitals which are annually recurrent in anticipation of assessment.

The County Personnel Board has been unusually active because of the appropriation by the Legislature of a sum for a resurvey. The board has visited every county and almost every county office and institution. Due to war conditions there has been an unprecedented turnover in employment,

especially in the hospitals. This complicates the survey and makes it difficult for the board to arrive at conclusions. It is hoped, however, that the results of this survey and a revised salary scale may soon be published.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts

STATE HOUSE, BOSTON

March 13, 1942

Consolidation of Tables Nos. 1 to 12 Inclusive.

THE COMMONWEALTH OF MASSACHUSETTS

1

REPORT ON THE STATISTICS OF COUNTY FINANCES.
FOR THE YEAR ENDING DECEMBER 31, 1947.

on. Henry F. Long, Commissioner of Corporations and Taxation,
State House, Boston, Mass.

ir:

Pursuant to the regulations of the Department of Corporations and
axation, I submit herewith a report on the statistics of County Finances
or the year ending December 31, 1947.

The last report of this nature was printed for the year ending December
1, 1941. During the war years publishing and printing reports were
restricted, due primarily to shortage of paper.

The statistics contained in this report were compiled from sworn returns
iled with this division in accordance with the provisions of General
aws, Chapter 35, Sections 44 and 45, and are similar to reports of previous
ears. Although the treasurer of the city of Boston is also the treasurer
f Suffolk county, he is by law exempt from making returns required by the
bove statute, and for that reason, only receipts and expenditures of such
uffolk county offices which are required to report are included. Although
he city of Boston pays the expenses of Suffolk county offices and institu-
ions, such expenditures are not included.

The summary table following the text of this report is a consolidation
f table 1 to 12 inclusive, with duplications eliminated so far as they can
e identified. The tables are set up as follows:

- Table No. 1 - Returns of County Treasurer, except Suffolk.
- Table No. 2 - Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 - Returns of Clerks of District and Municipal Courts.
- Table No. 4 - Returns of Trial Justices.
- Table No. 5 - Returns of Registers of Probate.
- Table No. 6 - Returns of Registers of Deeds.
- Table No. 7 - Returns of Recorder and Assistant Recorders of Land Court.
- Table No. 8 - Returns of Sheriffs.
- Table No. 9 - Returns of Keepers of Jails and Masters of Houses of
Correction.
- Table No. 10 - Returns of Probation Officers in Superior, District and
Municipal Courts.
- Table No. 11 - Returns of Tuberculosis Hospitals.
- Table No. 12 - Returns of County Aid to Agriculture.

In compliance with General Laws, Chapter 35, Sections 44 and 45, the books and accounts of county treasurers were examined during 1947. Record of other county officers were also examined, and with a few exceptions the examinations were completed. Examinations not started prior to the close of the calendar year 1947, have since been completed.

For the most part the books and accounts reflect careful and conscientious work. As in the past, however, our examiners continue to uncover instances of official disregard or failure to comply with the requirements of laws, instructions, directions and requests of this office. Discrepancy in cash, allowing personal checks to remain among the cash items for an unreasonable length of time and failure to keep records up to date, are the general shortcomings most frequently noted. These conditions not only bring severe criticism on those officials by this office, but also hampers the service our examiners are able to render.

The cash discrepancies and personal checks found among the cash items were made good within the period allowed by law. The bringing up to date of records not found completed on the examiners first visit, requires a return trip to complete the examination. It is not within the duties of the examiners to do the bookkeeping of such officials, nor should he be forced to incur further expense to the commonwealth through loss of time, waiting for records to be brought up to date.

During the war years, the then Governor using the war emergency power granted him by the Legislature, issued on July 6, 1942, Executive Order #11 suspending the application of General Laws, Chapter 34, Section 17, so far as it effected the manner of contracting for the purchase of fuel for use in county buildings. On December 26, 1945 the then Governor issued Executive Order #86, rescinding the previous order #27 which brought back into effect the statutory requirements for the solicitation of bids by posting, advertising as well as for other matters concerning the awarding of contracts. While all counties received a copy of the Executive Order, in three counties at least the County Commissioners remained unaware that

Executive Order #27 had been rescinded. As there was no indication, however, of wilful violation of the statute, the Legislature validated such purchases of fuel for one county before they recessed in 1946; the other two counties had their purchases validated by the Legislature during 1947.

In order that it may be recorded for the guidance of county officials, I deem it advisable to report on a situation which developed in Bristol County during the year 1946.

Chapter 398, Acts 1945, provided for the appointment of the trustees of the Bristol County Tuberculosis Hospital by the Governor with the advice and consent of the Executive Council, in lieu of the County Commissioners acting in that capacity by virtue of their office.

The General Laws have made the county treasurer the custodian of funds belonging to the county and impose on him the duty of disbursing the same in accordance with law. Certain expenditures can be made only on order drawn and signed by a majority of the county commissioners and certified by their clerk. In view of the county commissioners no longer serving as trustees of the Tuberculosis Hospital, the County Commissioners felt it was not incumbent upon them to approve the hospital expenditures, or have them certified by their clerk. An opinion of the Attorney-General dated January 13, 1947, held, "that the county treasurer may not make payments in connection with the operation of Bristol County Tuberculosis Hospital without order of the county commissioners for the same, and it is the duty of the county commissioners to make such order for proper payment on account of salaries and expenses of the maintenance of said hospital." Thereupon the county commissioners approved for payment the aforesaid expenditures and will continue their responsibility under the law.

Under the provisions of General Laws, Chapter 35, as amended by Acts of 1945, Chapter 158, county commissioners are required to file with this office, on or before January 20th, estimates of county receipts and

expenditures for the ensuing year, which I am required to analyze, and report to the general court. These estimates include an item for "unpaid bills of previous years", concerning which, at the time the estimates were prepared the county commissioners had no knowledge of their actual amount, and which is often changed when heard by the Legislative committee on counties. Inasmuch as the county commissioners are unable to furnish me the exact amount included in the estimates for "unpaid bills of previous years", I have made a study of the items included and paid during 1947 and find certain items that could have been paid when received.

In volume one of the Opinions of Attorneys-General, page 391, it states that, "(1) interest or debt due from a county, (2) costs in criminal prosecution, (3) expenses of the courts and (4) compensation or salaries of county officers established by law may be paid from any money in the county treasury and on page 509 will be found an opinion that, payments of "salaries of jailers, masters and assistants, and support of prisoners in jails and houses of correction", are payments "required by law", and may be paid from "any money in the county treasury".

In the light of such circumstances, it appears in order to more expeditiously honor these proper charges against the county, that county treasurers instead of waiting upon a special appropriation for the purpose by the legislature at a future date, pay forthwith such items as are required to be paid by law notwithstanding the absence of an appropriation.

For the guidance of officials purchasing supplies and equipment for use in their department, it seems best to set forth the following procedure so far as the payment of such liabilities are concerned. When supplies and equipment are ordered and not received before the end of the fiscal year, the county commissioners should be so advised, so that they may make provisions to liquidate such liabilities prior to the passage of the appropriation act, by reserving from the unexpended balance of the appropriation

controlling the expenditures for maintenance of a particular department, an amount sufficient to make payment in full when the supplies or equipment are delivered.

A history of the classification of appropriation items in the form used prior to the change of 1948 extends back some fifty-two years. In 1895 the legislature for the first time specified not only the county tax to be assessed, but also set forth the appropriation items. The appropriation items set forth by the resolves of 1896 have remained constant from that year to the end of 1947, except for additional items needed to take care of additional activities placed under the control of counties.

Members of the division of accounts and county officials having most to do with the approval and payment of expenditures, have long felt that the appropriation schedule did not readily show to those not conversant with county finances, the actual maintenance cost of any particular service rendered in a county. With these conditions in mind, a new segregation of appropriation items was devised and put into effect beginning in 1948, after advising county commissioners and treasurers of our intent and affording them opportunity to express their views and comments on the changes proposed. This new segregation will serve to localize the appropriations as nearly as circumstances will permit to the respective county official responsible for their expenditure.

Each appropriation as now set forth in the estimates filed in this office in January, should include all possible items of expense for a particular activity for a full year.

Under the provisions of Chapter 5, Acts of 1943, counties were authorized to set up a Post-war Rehabilitation Fund and to purchase for this fund, United States defense bonds, war bonds, or other bonds which are available for savings banks. Ten counties have invested in this fund \$1,015,455.89 and three counties are asking the legislature for authority to purchase

in 1948, \$82,500.00 more of these bonds for this fund. During the existing state of war, as these bonds mature, the counties are authorized to reinvest such matured funds in the same type of securities. At the termination of the existing state of war, the proceeds from the sale of these securities shall be used only for purposes authorized by the General Court.

The funded debt as at December 31, 1947, was \$253,000.00 which outstanding debt is being reduced annually by taxation and will be entirely paid off in 1951. There is also a contingent debt for construction of certain county hospitals amounting to \$332,600.00. This debt is being reduced by annual assessment against the hospital district and will be entirely retired in 1957. The above however, does not include temporary loans for maintenance of tuberculosis hospitals, which are annually recurrent in anticipation of reimbursement.

Respectfully submitted,

Francis X. Lang

Director of Accounts

State House, Boston
March 10, 1948

State Library of Massachusetts
State House, Boston

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES FOR THE YEAR ENDING DECEMBER 31, 1951

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,*
STATE HOUSE, BOSTON, MASS.

SIR: — Pursuant to the regulations of the Department of Corporations and Taxation, I submit herewith a report on the statistics of County Finances for the year ending December 31, 1951.

The statistics contained in this report were compiled from sworn returns filed with this division in accordance with the provisions of General Laws, Chapter 35, Sections 44 and 45, and are similar to reports of previous years. Although the treasurer of the city of Boston is also the treasurer of Suffolk county, he is by law exempt from making returns required by the above statute, and for that reason, only receipts and expenditures of such Suffolk county officials which are required to report are included.

The summary table following the text of this report is a consolidation of tables 1 to 12 inclusive, with duplications eliminated so far as they can be identified. The tables are set up as follows:

- Table No. 1 — Returns of County Treasurers, except Suffolk.
- Table No. 2 — Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 — Returns of Clerks of District and Municipal Courts.
- Table No. 4 — Returns of Trial Justices.
- Table No. 5 — Returns of Registers of Probate.
- Table No. 6 — Returns of Registers of Deeds.
- Table No. 7 — Returns of Recorder and Assistant Recorders of Land Court.
- Table No. 8 — Returns of Sheriffs.
- Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.
- Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.
- Table No. 11 — Returns of Tuberculosis Hospitals.
- Table No. 12 — Returns of County Aid to Agriculture.

In compliance with General Laws, Chapter 35, Sections 44 and 45, the books and accounts of most county officers were examined, and with a few exceptions were completed. Examinations not started prior to the close of the calendar year 1951, have since been completed.

For the most part the books and accounts reflect careful and conscientious work. As in the past, however, our examiners continue to uncover instances of official disregard or failure to comply with the requirements of laws, directions and requests of this office. These conditions not only bring criticism on those officials by this office, but also hamper the service our examiners are able to render.

The bringing up to date of records not found completed on the examiners' first visit, requires a return trip to complete the examination. It is not within the duties of the examiners to do the bookkeeping of such officials, nor should they be forced to incur further expense to the commonwealth through loss of time, waiting for records to be brought up to date.

In 1948 we put into effect a new segregation of appropriations so as to include all possible items of expense for a particular activity for a full year. This year we have been working to further segregate the appropriations and expect to have this new budget form in effect for the 1953 appropriations.

The funded debt as of December 31, 1951 was \$2,136,995.20 which is reduced annually by taxation. There is also a contingent debt for construction of certain county hospitals amounting to \$1,331,600. This debt is being reduced by annual assessment against the hospital district. The above, however, does not include temporary loans for maintenance of tuberculosis hospitals, which are annually recurrent in anticipation of reimbursement.

Respectfully submitted,

FRANCIS X. LANG, *Director of Accounts.*

STATE HOUSE, BOSTON.

CONSOLIDATION OF TABLES NOS. 1 TO 12, INCLUSIVE.

1951

Receipts

County tax	\$13,895,928.82
Temporary loans:	
Anticipation of taxes	7,085,000.00
